Directors' report

The directors of Pinnacle Fund Services Limited, the Responsible Entity of the Solaris Australian Equity Long Short Fund ("the Fund"), present their report together with the interim financial statements of the Fund for the half-year ended 31 December 2020.

Principal activities

The Fund is a registered managed investment fund domiciled in Australia.

The Fund provides the investor with an opportunity to invest in a fundamental style neutral Australian equity long short product. The Fund will maintain a net exposure of 70% - 100%, with the proceeds from shorting (40% maximum) reinvested in preferred long positions in order to enhance returns. The investment objective of the Fund is to achieve returns that exceed the S&P/ASX200 Accumulation Index by taking both long and short positions in selected shares listed on a recognised Australian exchange. The portfolio will typically consist of 40 - 70 long ideas and 20 - 30 short ideas. The Fund may be suitable for investors with an investment horizon of 3 to 5 years, and seek capital growth and income via exposure to Australian stocks and are willing to accept the short-term fluctuations in price typically associated with such investments.

Solaris Investment Management Limited is the Investment Manager of the Fund.

The Fund did not have any employees during the half-year.

Directors

The following persons held office as directors of Pinnacle Fund Services Limited during the half-year and up to the date of this report:

The Responsible Entity also has a Compliance Committee consisting of one non-external member and three external members.

The functions of the Compliance Committee are set out in s601JC as being to:

- (a) monitor to what extent the Responsible Entity complies with each Scheme's Compliance Plan and report on its findings to the Responsible Entity;
- (b) report to the Responsible Entity any breaches of the Corporations Act involving a Scheme, or any breach of the provisions included in a Scheme's constitution in accordance with s601GA of which the Compliance Committee is aware or suspects;
- (c) report to ASIC if the Compliance Committee is of the view that the Responsible Entity has not taken, or does not propose to take, appropriate action to deal with a matter reported under paragraph (b) above; and
- (d) assess at regular intervals whether each Scheme's Compliance Plan is adequate and report to the Responsible Entity on the assessment, and to make recommendations to the Responsible Entity about any changes it considers should be made to a Scheme's Compliance Plan.

Significant changes in state of affairs

In the opinion of the directors, there were no other significant changes in the state of affairs of the Fund that occurred during the financial half-year.

Matters subsequent to the end of the financial half-year

No matter or circumstance has arisen since 31 December 2020 that has significantly affected, or may significantly affect:

- (i) the operations of the Fund in future financial periods, or
- (ii) the results of those operations in future financial periods, or
- (iii) the state of affairs of the Fund in future financial periods.

Likely developments and expected results of operations

The Fund will continue to be managed in accordance with the investment objectives and guidelines as set out in the governing documents of the Fund.

The results of the Fund's operations will be affected by a number of factors, including the performance of investment markets in which the Fund invests. Investment performance is not guaranteed and future returns may differ from past returns. As investment conditions change over time, past returns should not be used to predict future returns.

The outbreak of COVID-19 worldwide has led to extreme volatility in equities markets, which impacts the value of the Fund's assets. Governments have introduced significant fiscal stimulus, but it is still too soon to predict the longer-term economic impacts. The Directors of the Responsible Entity are monitoring the evolution of the situation closely. The Fund has procedures in place to actively monitor its service providers to ensure its continued operational effectiveness. In addition, the Fund is closely monitoring its investment policies, strategies, investment flows, performance and liquidity during this period. As at the date of this report, the fund has not experienced liquidity issues and has been able to facilitate all redemptions when due.

Environmental regulation

The operations of the Fund are not subject to any particular or significant environmental regulations under a Commonwealth, State or Territory law.

1 Basis of preparation of interim financial statements

This interim report for the half-year ended 31 December 2020 has been prepared in accordance with the *Corporations Act 2001* and Australian Accounting Standard AASB 134 *Interim Financial Reporting*.

This interim report does not include all the notes of the type normally included in an annual financial report. Accordingly, this report is to be read in conjunction with the annual report for the year ended 30 June 2020 and any public announcements made in respect of the Solaris Australian Equity Long Short Fund ("the Fund") during the interim reporting period in accordance with the continuous disclosure requirements of the *Corporations Act 2001*.

The interim report was authorised for issue by the directors on 9 March 2021. The directors of Pinnacle Fund Services Limited ("the Responsible Entity") have the power to amend and reissue the interim report.

The accounting policies and methods of computation adopted in the preparation of the half-year financial report are consistent with those adopted and disclosed in the Fund's annual financial report for the year ended 30 June 2020. These accounting policies are consistent with Australian Accounting Standard and with International Financial Reporting Standards.

There are no other standards, interpretations or amendments to existing standards that are not yet effective and that are expected to have a material impact on the Fund in the prior periods or will affect the current or future reporting periods, or will have an impact on foreseeable future transactions.

6 Fair value measurements

The Fund measures and recognises the below financial assets and liabilities at fair value through profit or loss on a recurring basis.

The Fund has no financial assets or liabilities measured at fair value on a non-recurring basis in the current reporting period.

Fair value hierarchy

Classification of financial assets and financial liabilities

The Fund classifies fair value measurements using a fair value hierarchy that reflects the subjectivity of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

(i) Fair value in an active market (level 1)

The fair value of financial assets and liabilities traded in active markets is based on their quoted market prices at the end of the reporting period without any deduction for estimated future selling costs.

The Fund values its investments in accordance with the accounting policies set out in the annual financial statements for the year ended 30 June 2020. For the majority of its investments, the Fund relies on information provided by independent pricing services for the valuation of its investments.

The quoted market price used for financial assets held by the Fund is the last traded price; the appropriate quoted market price for financial liabilities is the last traded price. When the Fund holds derivatives with offsetting market risks, it uses mid-market prices as a basis for establishing fair values for the offsetting risk positions and applies this bid or asking price to the net open position, as appropriate.

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

(ii) Fair value in an inactive or unquoted market (level 2 and level 3)

The fair value of financial assets and liabilities that are not traded in an active market is determined using valuation techniques. These include the use of recent arm's length market transactions, reference to the current fair value of a substantially similar other instrument, discounted cash flow techniques or any other valuation technique that provides a reliable estimate of prices obtained in actual market transactions.

Where discounted cash flow techniques are used, estimated future cash flows are based on management's best estimates and the discount rate used is a market rate at the end of the reporting period applicable for an instrument with similar terms and conditions.

6 Fair value measurements (continued)

Fair value hierarchy (continued)

(ii) *Fair value in an inactive or unquoted market (level 2 and level 3) (continued)*

For other valuation techniques, inputs are based on market data at the end of the reporting period. Fair values for unquoted equity investments are estimated, if possible, using applicable price/earnings ratios for similar listed companies adjusted to reflect the specific circumstances of the issuer.

The fair value of derivatives that are not exchange traded is estimated at the amount that the Fund would receive or pay to terminate the contract at the end of reporting period taking into account current market conditions (volatility and appropriate yield curve) and the current creditworthiness of the counterparties. The foreign currency contracts are valued at the forward rate.

Investments in other unlisted unit trusts are recorded at the redemption value per unit as reported by the investment managers of such trusts.

Some of the inputs to these models may not be market observable and are therefore estimated based on assumptions.

Valuation techniques employed may not fully reflect all factors relevant to the positions the Fund holds. Valuations are therefore adjusted, where appropriate, to allow for additional factors including liquidity risk and counterparty risk.

The carrying value less impairment provision of other receivables and payables are assumed to approximate their fair values. The fair value of financial liabilities for disclosure purposes is estimated by discounting the future contractual cash flows at the current market interest rate that is available to the Fund for similar financial instruments.

Recognised fair value measurements

The tables below set out the Fund's financial assets and liabilities (by class) measured at fair value according to the fair value hierarchy at 31 December 2020 and 30 June 2020:

As at 31 December 2020

| | Level 1 \$'000 | Level 2 \$'000 | Level 3 \$'000 | Total \$'000 |

Fair value hierarchy (continued)

As at 30 June 2020

| | Level 1 \$'000 | Level 2 \$'000 | Level 3 \$'000 | Total \$'000 |

| Total financial liabilities | <u>124,276</u> | <u>-</u> | <u>-</u> | <u>124,276</u> |

The carrying amounts of trade receivables and payables are assumed to approximate their fair values due to their short-term nature.

There were no transfers between levels for the half-year ended 31 December 2020 and year ended 30 June 2020.

7 Events occurring after the reporting period

No significant events have occurred since the end of the reporting period which would impact on the financial position of the Fund as at 31 December 2020 or on the results and cash flows of the Fund for the half-year ended on that date.

8 Contingent assets and liabilities and commitments

There were no outstanding contingent assets, liabilities or commitments as at 31 December 2020 and 30 June 2019.

Auditor's responsibility for the review of the half-year financial report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Registered Scheme's financial position as at 31 December 2020 and of its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. Accordingly, we do not express an audit opinion.
