## **6 Fair value measurements**

The Fund measures and recognises the below financial assets and liabilities at fair value through profit or loss on a recurring basis.

The Fund has no assets or liabilities measured at fair value after initial recognition on a non-recurring basis in the current reporting period.

### **Fair value hierarchy**

#### *Classification of financial assets and financial liabilities*

The Fund classifies fair value measurements using a fair value hierarchy that reflects the subjectivity of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

#### *(i) Fair value in an active market (level 1)*

The fair value of financial assets and liabilities traded in active markets is based on their quoted market prices at the end of the reporting period without any deduction for estimated future selling costs.

The Fund values its investments in accordance with the accounting policies set out in the annual financial statements for the year ended 30 June 2022. For the majority of its investments, the Fund relies on information provided by independent pricing services for the valuation of its investments.

The quoted market price used for financial assets held by the Fund is the last traded price; the appropriate quoted market price for financial liabilities is the last traded price. When the Fund holds derivatives with offsetting market risks, it uses mid-market prices as a basis for establishing fair values for the offsetting risk positions and applies this bid or asking price to the net open position, as appropriate.

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

#### *(i) Fair value in an inactive or unquoted market (level 2 and level 3)*

The fair value of financial assets and liabilities that are not traded in an active market is determined using valuation techniques. These include the use of recent arm's length market transactions, reference to the current fair value of a substantially similar other instrument, discounted cash flow techniques, option pricing models or any other valuation technique that provides a reliable estimate of prices obtained in actual market transactions.

Where discounted cash flow techniques are used, estimated future cash flows are based on management's best estimates and the discount rate used is a market rate at the end of the reporting period applicable for an instrument with similar terms and conditions.

For other pricing models, inputs are based on market data at the end of the reporting period. Fair values for unquoted equity investments are estimated, if possible, using applicable price/earnings ratios for similar listed companies adjusted to reflect the specific circumstances of the issuer.

The fair value of derivatives that are not exchange traded is estimated at the amount that the Fund would receive or pay to terminate the contract at the end of reporting period taking into account current market conditions (volatility and appropriate yield curve) and the current creditworthiness of the counterparties. The foreign currency contracts are valued at the forward rate.

Investments in other unlisted unit trusts are recorded at the redemption value per unit as reported by the investment managers of such trusts.

## 6 Fair value measurements (continued)

### Fair value hierarchy (continued)

#### (ii) Fair value in an inactive or unquoted market (level 2 and level 3) (continued)

Some of the inputs to these models may not be market observable and are therefore estimated based on assumptions.

Valuation techniques employed may not fully reflect all factors relevant to the positions the Fund holds. Valuations are therefore adjusted, where appropriate, to allow for additional factors including liquidity risk and counterparty risk.

The carrying value less impairment provision of other receivables and payables are assumed to approximate their fair values. The fair value of financial liabilities for disclosure purposes is estimated by discounting the future contractual cash flows at the current market interest rate that is available to the Fund for similar financial instruments.

#### Recognised fair value measurements

The tables below set out the Fund's financial assets and liabilities (by class) measured at fair value according to the fair value hierarchy at 31 December 2022 and 30 June 2022.

<b>Total financial liabilities</b>	<b>–</b>	<b>37.3</b>	<b>–</b>	<b>37.3</b>

\*Listed equity securities include listed equities and listed unit trusts.

The fair value of financial instruments that are not traded in an active market (for example, over-the-counter derivatives) is determined using valuation techniques. The Fund uses a variety of methods and makes assumptions that are based on market conditions existing at the end of each reporting period. The fair value of forward exchange contracts is determined using forward exchange market rates at the end of the reporting period. These instruments are included in level 2 and comprise derivative financial instruments (forward foreign exchange contracts).

There were no transfers between levels during the half-year ended 31 December 2022 and year ended 30 June 2022.

## **7 Contingent assets and liabilities and commitments**

There are no outstanding contingent assets, liabilities or commitments as at 31 December 2022 and 30 June 2022.

## **8 Events occurring after the reporting period**

No significant events have occurred since the end of the reporting period which would impact on the financial position of the Fund as at 31 December 2022 or on the results and cash flows of the Fund for the half-year ended on that date.

**Directors' declaration**

#### ***Conclusion***

We have reviewed the half-year financial report of Resolution Capital Global Property Securities Fund (Managed Fund) (the Registered Scheme) which comprises the Condensed statement of financial position as at 31 December 2022, the Condensed statement of comprehensive income, Condensed statement of changes in equity and Condensed statement of cash flows for the half-year ended on that date, significant accounting policies and explanatory notes and the directors of the Responsible Entity's declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the accompanying half-year financial report of Resolution Capital Global Property Securities Fund (Managed Fund) does not comply with the *Corporations Act 2001* including:

1. giving a true and fair view of the Registered Scheme's financial position as at 31 December 2022 and of its performance for the half-year ended on that date
2. complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

#### ***Basis for conclusion***

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity* (ASRE 2410). Our responsibilities are further described in the *Auditor's responsibilities for the review of the half-year financial report* section of our report.

We are independent of the Registered Scheme in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional & Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to the audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

#### ***Responsibilities of the directors of the Responsible Entity for the half-year financial report***

The directors of the Responsible Entity are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors of the Responsible Entity determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement whether due to fraud or error.

***Auditor's responsibilities for the review of the half-year financial report***

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Registered Scheme's financial position as at 31 December 2022 and of its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
